Oral Assignment #2

“Term Paper Topic”

5 points

On **Tuesday April 1** you will be invited to describe your term paper topic in class. You could just state the topic, or include how it relates to global change, or you could elaborate a little on what you find to be interesting about the topic, perhaps 10-30 seconds or so. If you have some ideas that you can't decide between, you could mention them. If you don't have a specific topic yet, perhaps you have a general area that you are interested in. It could be beneficial to get some constructive reactions or suggestions from your classmates. It's also fine to say that you haven't decided yet. Even if you declare a topic, you should feel free to change your mind if you like another topic better. There are a lot of other topics that we'll cover later, one of which might prompt an idea. If you'd like to talk about developing a topic you could come to office hours T 12:30-1:30.

To receive 5 points, please describe your idea to the class (3 pts) and upload your title/statement to canvas (2 pts) under Oral Assignment 2.
